Give Us Your Input!

JUN 15 1998

01205

Public input from thousands of Californians has already helped shape the CALFED Bay-Delta solution. However, there are many significant issues that still need to be decided. Please fill out this form and tell us what you think is important when developing an equitable, feasible and durable Bay-Delta solution.

Comments:

As a life long resident of Butte County
and a farmer and small business owner, I am
deeply concerned about the alternatives proposed
in the CalFed summary.

The issue of additional storage should
be paramount to the process, not only for
the protection of Northern California water
rights, but the needs of the delta area and
the water needs of Southern California.

Surface and groundwater are imperative to
the quality of life in Northern California. Please
seriously consider additional water storage for all of
the citizens of California, human and animal. We need it!

Use additional sheets if necessary.

Thank you,

Sarah Dahl
